Appendix A

Update on Action Items (in blue)

Min 40: Anti ram post

RESOLVED

To approve the costs of an anti ram post (£120.69) and installation (£250) for Chequers Green.

Has been delivered and will be installed shortly.

Clerk

Min 44: c) Kingsley Road The Chairman reported that he believed the overgrown footpath had now been cleared but he would check all the areas in question.

The Chairman had reviewed the area and believed all the paths were clear

CE

Min 49: Dragon's teeth Cross Green

The committee reviewed the 2 quotes received and decided that the specifications of the second quote would be more durable. It was noted that this work should not begin until after the pond project is completed so as not to prevent access for required machinery.

RESOLVED

To approve the cost to install dragon's teeth at Cross Green up to a cost of £2,685 but to ask if the posts could be spaced 1.5metres apart rather than 1 metre. This would save money but still protect the conservation area.

Clerk

The supplier had quoted and had come in under this approved cost.

To use £1,000 of the Lengthsman Scheme forwards this project. Therefore maximum cost to EPC after Lengthsman Scheme would be £1,685.

The Chairman will measure the area and provide a sketch to the supplier.

CE

The Chairman is still to do this.
